PROJECT

FURNISAVE

Within the framework of an urban recycling network, FurniSave rethinks the practice of bulk waste collection in Budapest.

## GOALS

The development of a district-level pilot model based on establishing a sustainable furniture recycling system operated in cooperation with a local municipality.

**Over the six months of the incubation program**, Bori's goal is to create a system plan, a corresponding business model, and a presentation package. In addition, she will put together a partner network building package to prepare for the launch of the pilot project.

MENTOR: DALMA BERKOVICS
