

## ECTS

The credit system used at MOME basically has the same structure as the European Credit Transfer and Accumulation System (ECTS).

ECTS credits are based on the workload students need to expense in order to achieve expected learning outcomes. Learning outcomes describe what a learner is expected to know, understand and be able to do after successful completion of a process of learning.

Workload indicates the time students typically need to complete all learning activities (such as lectures, seminars, projects, practical work, individual learning and examinations) required to achieve the expected learning outcomes. One credit corresponds to 30 hours of learning workload. 60 ECTS credits are attached to the workload of a full-time year of formal learning (academic year) and the associated learning outcomes.

Recognition of ECTS at the home university during Erasmus studies:

Students completing the course equivalent to the course of the home institute receive the same amount of credits which they would have received when completing the course at the home university. Thus, ECTS credits are converted into Hungarian credits. Every course listed in the Learning agreement is recognized at MOME.

MOME uses a five-scale grading system: 1 Hungarian grade = 1 ECTS grade

Grading in a given subject is done on a five point scale:

An excellent (5) - grade is assigned to the student who thoroughly knows the entire subject matter in all of its inherent relationships and is able to

independently apply his/her knowledge with absolute certainty;

A good (4) - grade is assigned to the student who thoroughly knows the entire subject matter of the course and can safely apply its content;

A satisfactory (3) - grade is assigned to the student who knows the significant portions of the subject matter of the course and is able to apply them with suitable safety;

A pass (2) - grade is assigned to the student who knows the significant parts of the course on a satisfactory level and is able to demonstrate an acceptable level of familiarity in the application of the content of the course;

A fail (1) - grade is assigned to the student who does not command sufficient knowledge and demonstrate skill in applying the practices of his/her chosen field.

Qualification - excellent (Exc), average (Av) or fail (Fail).

Signature - pass (Pass) or fail (Fail).
